

Workshop Review**“Islamization of Attitude and Practice
in Science and Technology”,**

February 27-March 1, 1987

Washington, DC

The subject Workshop, “Islamization of Attitude and Practice in Science and Technology”, was held in the new IIIT Building, 555 Grove Street, Herndon, VA. The theme of the Workshop was discussed under four sub themes: Attitude and Practice in:

- a) Research, Education and Profession in a Hostile Environment
- b) Research and Research Administration in the Muslim World
- c) Particular Fields in Science and Technology
- d) Future Science and Technology: What Should Be Done?

There were twelve papers presented in six workshops of 1½ hour each. The titles and authors of the papers are as follows:

Dr. Essam Ismail - *Profiles of Muslim Students in USA: Population and Orientation*

Dr. M. Yameen Zubairi - *The Principle of Intrinsic Opportunity*

Dr. Syed M. Amir - *Scientific Research in Muslim Countries*

Dr. Sajjad H. Durani - *Incorporation of Islamic Values in the Administration of a Science Research Institute*

Dr. S. Imtiaz Ahmad - *Perspectives on Knowledge Engineering*

Dr. Muhammad Ishaq Zahid - *Use of Islamic Beliefs in Mathematics and Computer Science Education*

Dr. Adel A. Bakr - *A Blue Print for the Islamization of Attitudes and Practices in Earth Sciences with Special Emphasis on Groundwater Hydrology*

Dr. Mazhar Hussaini - *Islamic Attitudes and Practices in Food and Nutritional Sciences*

Dr. M. A. K. Lodhi - *The Making of a Scientist or The Islamizing of a Muslim Scientist*
